SENIOR ACCOUNTING MANAGER

We are seeking a person who has strong understanding both in management and statutory accounting. This position is new and the person will be a key member of our finance team reporting to Group Accounting Officer.

Key responsibilities:

- ✓ Responsible for the month end close process and reporting accurate financial information.
- ✓ Responsible for ensuring all key accounts are reconciled and accounting policies compliant with Group & external reporting and audit requirements.
- ✓ Responsible for ensuring that strong financial control are in place and are working effectively, that the business controls are compliant with the legal and Group requirements
- ✓ Develop and update financial dashboard for critical financial operating parameters
- ✓ Working in partnership with other FinVector managers and executives to meet revenue, margin and profit goals.
- ✓ Budgeting & Forecasting: Prepare and manage the annual budget for Group.
- ✓ Undertake financial assessments of alternative business models such as leasing / capital partnering to drive strategic growth objectives.

In order to be successful in the task, we assume over 5 years of experience from accounts on practical level. Experience on implementing/using enterprise reporting platforms or working in corporate Group structure is seen as merit as well as good understanding in Group structure accounts levels. Good English knowledge is necessary and excellent communication skills are needed in the position.
